## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-21 are rejected under 35 U.S.C. 102(e) as being anticipated by US patent

#6,377,286 (Hochmuth).

- As for claims 1, 5, 8, 12, 15, 19: Hochmuth teaches a computer implemented method and corresponding apparatus comprising the steps/means for:  
storing a condition (i.e., “specified criteria”) for creating (4:18-29, 57-65; 5:57-65)  
and deleting (4:18-29, 57-65; 6:49-62) the shortcut icon,  
updating an application program startup record in response to startup of the  
application program (4:18-29),  
automatically creating or deleting the shortcut icon when the startup record satisfies  
the conditions for creating or deleting the shortcut icon (abstract, Summary of the  
Invention, 4:30 – 6:25, 6:26 – 7:19).
- As for claims 2, 9, 16: The creation condition includes the number of application  
programs startups as a threshold value and the startup record includes the number of  
application startup (4:18-65; 5:57-65).

Art Unit: 2179

- As for claims 3, 10, 17: The method/apparatus further includes storing a condition (i.e., “specified criteria”) for deleting (4:18-29, 57-65; 6:49-62) the shortcut icon, and automatically deleting the shortcut icon when the startup record satisfies the conditions for creating or deleting the shortcut icon (abstract, Summary of the Invention, 4:30 – 6:25, 6:26 – 7:19).
- As for claims 4, 6, 11, 13, 18, 20: The deletion condition includes as a threshold value a period during which the application has not been executed, and the startup record includes a date at which the application was executed (4:18-65; 6:49-62).
- As for claims 7, 14, 21: A startup icon is automatically created when the startup record satisfies the conditions for creating (or conversely, does not satisfy the condition for deleting the shortcut icon). This automatic creation of the shortcut is equivalent to “restoring” a deleted shortcut icon of a particular application when the condition for creating the shortcut icon for this application is regained (abstract, Summary of the Invention, 4:30 – 6:25, 6:26 – 7:19).
